

Orinda, March 3, 1979.

Mr. and Mrs.
Frank Brickwedel
Crescent City,
Calif.

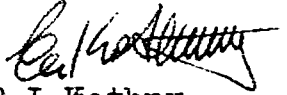

Dear Mr. and Mrs. Brickwedel:

Thank both of you very much for your hospitality during my last visit to Crescent City.

Please find enclosed the quotation you wanted for geochemical survey of your property. Due to the first visit to Monumental, which is free of charge to you, I was able to formulate more precise plans for studying the area. The chunk of ore you picked up that day had a gold content I have never seen before for that type of ore, namely 5 ounces per ton!

Should you have any further questions, please do not hesitate in writing or calling me again.

Sincerely yours

E. L. Kothny
