Dear Frank:

Freeport has elected to not pursue your Monumental property. Even though gold values are present, I don't feel that the property has the potential to meet Freeport's size criteria.

Enclosed are an assay sheet and sample location map for the work I did on your land. Samples (A 44101-ML) - (A 44105-ML) are not on the map, but were collected from the adit that is near the incline. Also enclosed is the property map you gave me.

Thank you for considering Freeport.

Sincerely,

David C. Flint  
Geologist
